The Electric Vehicle Charging Station in the Civic Center parking structure is now open for use!

Located at 124 E. College St, Covina, CA.

The dual port system can charge two vehicles simultaneously.

The chargers have varying charge times that can be paid through the use of a personal credit card or by requesting a Chargepoint card, which can be loaded with funds similar to a pre-paid debit card. Customers will be charged a per kilowatt hour (kWh) rate that coincides with Southern California Edison's (SCE) kWh rate.

For further information, please call Environmental Services at (626) 384-5480 or email transportation@covinaca.gov
