Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by DUDEK were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # B72E-4F9E-9B82

PO # 14182.06

Project Covina Reliability Project

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: B72E-4F9E-9B82

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☑ Library of Congress
- ☑ University Publications of America
- ☑ EDR Private Collection

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

Summary information obtained is provided in the text of this report.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

AFX Reference Number:
79-307138-47

Our Environmental Lien and AUL report to 1980 provides a summary of recorded information on a specific property from January 1st, 1980 to present time. The report is intended to assist in the search for environmental liens filed in land title records. The report will verify property ownership, links the recorded transactions which pass title from one person (and/or entity) to another, and provide information on recorded environmental liens and/or Activity and Use Limitations that have been recorded from January 1st, 1980 forward. The scope of this search is compliant with ASTM 1527-21 standards.

Our professional network of trained researchers follow established industry protocols and use client-supplied property information to complete this Environmental Lien and AUL report. The research is conducted at all appropriate government offices based on the location of the subject property. This would include City, County, State, Federal and Tribal offices as needed. The report includes:

- Current deed information (i.e. grantor, grantee, recording dates)
- Historical property transfer information from 1980 forward (i.e. grantor, grantee, recording dates)
- Legal Description
- Environmental Lien information
- Activity and Use Limitation information
- Any Environmental Liens and/or documents referencing AULs that are listed within our summary report

DISCLAIMER

This report was prepared for the intended use of AFX Research, LLC (AFX) and client, exclusively. This report is not a guarantee of title, nor a commitment to insure, nor a policy of title insurance. No warranty, expressed or implied, is made whatsoever in connection with this report. AFX Research, LLC specifically disclaims the making of any such warranties, including without limitation, merchantability or fitness for a particular use or purpose. The information contained in this report is retrieved as it is recorded from the various agencies that make it available. The total liability is limited to the fee paid for this report.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

The Click here to access additional FINDS: detail in the EDR Site Report. database contains http://www.edrnet.com/srf2/FinalSiteReport.aspx?ID=4Zk4yKZuHkvj2ZbyQ4Kox9squxqHYv3OavApjE02g.ZEnb2k3UlQMZ47x5UjoLhxfp9J4sJfqNk5gTxw.qxG9qUYqUvSo4bgZelk2m2SsytQKLQ8W6uYXHpn2RtvHSj5B8lkZN9buM3HjQRE4dH8KFopVxiq46osuRq6l5o.x3bqnb4OJZGDkQZ3GTy7OKmK28SuKeHxn96mvEyjBO5kZZsObcL868QEx4Cm8ZuoAZxGV6.asn3q9l9IRxyEqr5A4VYeZvhA1c9OTGaDX40LAWvpqSuhAEgN0ut4mkZCZkLy3h.yGGKkI2BKu4CH9h3psvP2jyU2xsZmKbYr2kTQhp4Ee2xyoz8xKB6kbsQcqWE2laxIZqch5B6Y3Zvel2VrOdMaB8Am.A9Spz22qEEDj0Az2 additional records for this site. Citation:	HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description:	Failure to comply with one or more of the following requirements: 1. Have record of inspections and integrity tests signed by the appropriate supervisor or inspector. 2. Keep written procedures and records of inspections and integrity tests for at least three years. 3. Keep comparison records.
Violation Notes:	Returned to compliance on 02/08/2017. OBSERVATION: Failure to comply with all of the following requirements: 1. Failure to conduct inspections and tests in accordance with written procedures that you or a certifying engineer have developed for the facility. 2. Failure to sign written procedures and/or a record of inspections and/or customary business records by the appropriate supervisor or inspector. 3. Failure to keep written procedures and/or a record of inspections and/or customary business records with the plan. AND 4. Failure to maintain written procedures and/or a record of inspections and/or customary business records for three years. Inspection records do not detail the required information and procedures as detailed in the SPCC plan. CORRECTIVE ACTION: Conduct tests/inspections in accordance with written procedures and maintain records for 3 years.

Site Name:	ASSOCIATED AUTO AIR RADIATOR
Violation Date:	11-28-2022
Citation:	22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12
Violation Description:	Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.
Violation Notes:	Returned to compliance on 12/22/2022. OBSERVATION: The generator has not obtained an Identification Number to manage hazardous waste. A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without obtaining an Identification Number. EPA ID number CAL00016942 is registered to the previous owner Steve Hart as an individual. CORRECTIVE ACTION: Obtain an EPA ID number for Associated Auto Radiator Inc. as the legal business owner. Submit documentation to the CUPA demonstrating that you have obtained an Identification Number.
Violation Division:	Los Angeles County Fire Department
Violation Program:	HW
Violation Source:	CERS,
Site ID:	93684
Site Name:	ASSOCIATED AUTO AIR RADIATOR
Violation Date:	11-28-2022
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 12/22/2022. OBSERVATION: Observed 2 x 15-gallon drums of waste solvent without hazardous waste label and accumulation start date. Owner/Operator is a small quantity generator and failed to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles), or has failed to comply with the conditions of CCR 66262.34(d) and has stored hazardous waste over 90 days. CORRECTIVE ACTION: Dispose of hazardous waste that has been stored over the applicable time limit and provide documentation that the violation has been corrected.

Violation Date:	11-28-2022
Citation:	HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)
Violation Description:	Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes:	Returned to compliance on 12/22/2022. OBSERVATION: The business failed to electronically submit complete and accurate chemical inventory information for all hazardous materials on site at or above reportable quantities in CERS. CORRECTIVE ACTION: Electronically submit complete and accurate chemical inventory information for all hazardous materials on site at or above reportable quantities. Add the 175-gallon of Automatic Transmission Fluid observed during inspection.

Violation Notes:	Returned to compliance on 09/02/2021. OBSERVATION: Owner/Operator failed to submit the hazardous waste notification electronically to CERS. CORRECTIVE ACTION: Owner/Operator shall submit a notification of hazardous waste generated by the facility in accordance with HSC 25158 electronically to CERS. Go to www.cers.calepa.ca.gov. Complete the business activities and owner information only. HSC 25404(e)(4) No later than three years after the statewide information management system is established, each CUPA, PA, and regulated business shall report program data electronically. The secretary shall work with the CUPAs to develop a phased in schedule for the electronic collection and submittal of information to be included in the statewide information management system, giving first priority to information relating to those chemicals determined by the secretary to be of greatest concern. The secretary, in making this determination shall consult with the CUPAs, the California Emergency Management Agency, the [Truncated]

CERS: Other Ascertainable Records

Name:	J & J DOOR CLOSER SVC INC
Address:	716 E EDNA PL # F
City,State,Zip:	COVINA, CA 91723
Site ID:	124890
CERS ID:	10286347
CERS Description:	Chemical Storage Facilities

Violations:

Site ID:	124890
Site Name:	J & J DOOR CLOSER SVC INC
Violation Date:	02-13-2018
Citation:	40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)
Violation Description:	Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.
Violation Notes:	Returned to compliance on 03/21/2018. OBSERVATION: As demonstrated by the number and type of hazardous waste violations observed at the time of inspection, personnel are not adequately trained to perform their duties in a way that ensures the facility's compliance with the requirements of this chapter. CORRECTIVE ACTION: Conduct training with applicable personnel and document it according to the requirements of 22 CCR 15 66265.16(d). Submit a copy of the documentation to the CUPA.
Violation Division:	Los Angeles County Fire Department

Citation:	22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Description:	Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.
Violation Notes:	Returned to compliance on 03/21/2018. OBSERVATION: Uniform Hazardous Waste Manifests/ Receipts of disposal for waste oil & parts washer service were not available at the time of inspection. CORRECTIVE ACTION: Locate the most recent receipt of manifest showing disposal of waste oil and parts washer and submit copies to the CUPA.

Environmental Interest/Information System:

HYDRO-FITTING MANUFACTURING CORPORATION, 733 E EDNA PL, COVINA, CA 91722 (Continued)

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violations:

Site ID:	123650
Site Name:	HYDRO FITTING MFG CORP
Violation Date:	01-04-2022
Citation:	HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)
Violation Description:	Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes:	Returned to compliance on 03/24/2022. OBSERVATION: The business failed to electronically submit complete and accurate chemical inventory information for all hazardous materials on site at or above reportable quantities. CORRECTIVE ACTION: Electronically submit complete and accurate chemical inventory information for all hazardous materials on site at or above reportable quantities. Add Nitrogen gas to your hazardous materials inventory.

EXECUTIVE SUMMARY

Alta Environmental LP, an NV5 Company (NV5) has completed a Phase I Environmental Site Assessment (ESA) of the property identified by Los Angeles County Tax Assessor's Parcel Numbers (APNs) 8429-007-005, -006, and -007 located along the southern side of E. Edna Place in Covina, Los Angeles County, California (Site). The ESA was performed in conformance with the scope and limitations of ASTM E1527-21 standards. Any exceptions to, or deletions from, this practice are described in Section 1.0 of this report. The assessment was performed to identify conditions indicative of releases and threatened releases of hazardous substances and petroleum products on, at, in, or adjacent to the Site. If identified, these issues are considered recognized environmental conditions (RECs).

Site and Vicinity Description

The Site is located on the southern side of E. Edna Place between Barranca Avenue and Grand Avenue in the City of Covina, Los Angeles County, California. The Site is approximately 0.94 acres in size and consists of three contiguous parcels of land that are identified by Los Angeles County Tax APNs: 8429-007-005, -006, and -007. According to tax assessor records, an address has not been assigned to this property.

The Site is located within an area developed for commercial and industrial use. Current uses of adjoining properties include E. Edna Place followed by a multi-tenant industrial business park to the north, a satellite television facility to the east, railroad tracks followed by a janitorial office to the south, and a pet day-care facility to the west.

Site Use and History

The Site is currently developed with an asphalt paved parking lot used for RV storage. A majority of the Site is used for vehicle storage. A small, shed structure located on the central portion of the Site and is used for storage of alarm and security equipment. No chemicals or petroleum are stored at the Site.

Historical resources indicated that the Site was originally cultivated for agricultural use as early as 1928. Between 1954 and 1963, the Site was redeveloped for use as a vehicle parking lot.

Data Gaps

The ASTM Standard defines a data gap as "a lack of or inability to obtain information required by the practice despite good faith efforts by the Environmental Professional to gather such information." A data gap is only significant if other information obtained during the ESA, or professional experience, raises reasonable concerns and affects the ability of the Environmental Professional to identify whether a given issue is a REC. The ASTM Standard requires that the ESA report identify and comment on significant data gaps. No data gaps were identified by NV5 during this assessment.

Vapor Encroachment Conditions (VEC)

A Tier 1 vapor encroachment screen (VES) for potential chemicals of concern (COC) was completed for the Site. The assessment was based on the ASTM published Standard Guide E 2600-22. The purpose of the VES was to evaluate the potential for a vapor encroachment condition (VEC), which is the presence or likely presence of COC vapors in subsurface soils at the Site caused by the release of vapors from contaminated soil or groundwater on or near the Site. The results of the VES did not identify evidence of a potential VEC in connection with the Site.

Conclusions and Recommendations

No evidence of a REC, Historical REC (HREC), Controlled REC (CREC) or VEC, in connection with the Site were identified during this assessment.

Environmental Issues of Note

While not considered to represent RECs, the following environmental issue of note were identified at the Site during this assessment:

- The Site has been previously cultivated for agricultural use. Although no information or observations indicating the misuse or misapplication of pesticides, herbicides, or fertilizers was identified during the assessment, in certain instances, the chemicals historically applied to the Site, or their breakdown products, could be persistent and not biodegrade. As with any agriculturally developed land, there exists the possibility that pesticides, herbicides, or fertilizers have been applied that may still be present at residual concentrations.

Recommendations

Based on the findings and conclusions presented in this report, NV5 recommends the following:

- No additional assessment is recommended at this time.
- Due to the Site's previous agricultural use, herbicide and pesticide sampling may be required prior to export or disposal of any Site soils.

1 INTRODUCTION

Alta Environmental LP, an NV5 Company (NV5) completed a Phase I Environmental Site Assessment (ESA) of the property identified by Los Angeles County Tax APNs 8429-007-005, -006, and -007, in Covina, California (Site). The purpose of this assessment was to evaluate the environmental condition of the Site and to satisfy one of the requirements for qualification under the innocent landowner, contiguous property owner, or bona fide prospective purchaser defenses under the federal Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). ASTM Standard Practice E1527-21, and the United States Environmental Protection Agency (EPA) Standards and Practices for All Appropriate Inquiries (40 CFR Part 312) constitute the "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined in:

1. 42 U.S.C § 9601(35)(B), referenced in the ASTM Standard Practice E1527-21;
2. Sections 101(35)(B) (ii) and (iii) of CERCLA and referenced in the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312); and
3. 42 U.S.C. 9601(40) and 42 U.S.C. 9607(q).

This report was prepared exclusively for use by Upstream Renewable Dev I LLC (Client). This report may not be relied upon by any other person or entity without NV5's express written permission. The information, conclusions and recommendations described in this report apply to conditions existing at certain locations at the time when services were performed and are intended only for the specific purposes, locations, time frames and project parameters indicated. NV5 cannot be responsible for the impact of any changes in environmental standards, practices, or regulations after performance of services.

1.1 Objectives

NV5's objective for this environmental assessment was to identify conditions indicative of releases and threatened releases of hazardous substances and petroleum products on, at, in, or to the Site. The assessment was conducted to meet the standards of ASTM Standard Practice E1527-21.

The conclusions and recommendations provided herein are based on the following:

1. Current and past Site uses and occupancies;
2. Current and past uses of hazardous substances;
3. Waste management and disposal activities that could have caused releases or threatened releases of hazardous substances;
4. Current and past corrective actions and response activities undertaken to address past and on-going releases of hazardous substances;
5. Engineering controls;
6. Institutional controls; and
7. Evaluation of properties adjoining or located nearby the Site that have environmental conditions that could have resulted in conditions indicative of releases or threatened releases of hazardous substances to the Site.

1.2 Services

NV5 performed the following services to assess the Site:

1. Reviewed historical sources of information;
2. Searched for recorded environmental clean-up liens;
3. Reviewed Federal, State, Tribal, and local government records;
4. Visually inspected the Site and the adjoining properties;
5. Evaluated any specialized knowledge or experience on the part of the purchaser; and

6. Determined commonly known or reasonably ascertainable information about the Site.

1.3 Assumptions

NV5 has assumed the following for the purposes of this assessment:

1. Information provided during any interview (written or oral) was accurate and correct;
2. Database information reviewed was accurate and correct;
3. Historical information reviewed was accurate and correct;
4. Information reviewed at any governmental agency was accurate and correct;
5. Groundwater flow and depth to groundwater, unless otherwise specified by on-site well data or well data from adjacent sites, are assumed based on contours depicted on the United States Geological Survey (USGS) Topographic Maps; and
6. The Site has been correctly and accurately identified by the Client, Client representatives, Site contact, Site owner, and/or Site representatives.

1.4 Limitations

This assessment is limited to the standards set forth in ASTM Standard Practice E1527-21. This report specifically excludes assessment of the following:

1. Asbestos and asbestos-containing building materials;
2. Biological agents;
3. Cultural and historic resources;
4. Ecological resources;
5. Endangered species;
6. Health and safety;
7. Indoor air quality unrelated to releases of hazardous substances or petroleum products into the environment;
8. Industrial hygiene;
9. Lead-Based Paint;
10. Lead in Drinking Water;
11. Mold;
12. Radon;
13. Regulatory compliance; and
14. Wetlands.

Please note that considerations identified by ASTM as beyond the scope of a Phase I ESA may still affect business environmental risk at a given property. These environmental issues or conditions may warrant assessment based on the type of property transaction; however, they are considered non-scope issues under ASTM Standard Practice E1527-21 and not included in this assessment.

The conclusions and findings set forth in this report are strictly limited in time and scope to the date of the evaluation. The conclusions presented in this report are based solely on the services described herein, and not on scientific tasks or procedures beyond the scope of agreed-upon services or the time and budgeting restraints imposed by the Client. No subsurface exploratory drilling or sampling of any kind was conducted under the scope of this work. Unless specifically stated otherwise in the report, no chemical or physical analyses have been performed during the performance of this Phase I ESA.

Some of the information provided in this report is based upon personal interviews, and research of available documents, records, and maps held by the appropriate government and private agencies. This information is subject to the limitations of historical documentation, availability, and accuracy of pertinent records and the personal recollections of those persons contacted. As applicable, NV5 has relied in good faith upon representations and information furnished by individuals with respect to operations and existing property conditions, to the extent that they have not been contradicted by data obtained from other

sources. Accordingly, NV5 accepts no responsibility for any deficiencies, omissions, misrepresentations, or fraudulent acts of persons interviewed.

Property conditions, as well as local, state, tribal, and federal regulations can change significantly over time. Therefore, the recommendations and conclusions presented in this study apply strictly to the environmental regulations and property conditions existing at the time the study was performed. Available information has been analyzed using currently accepted assessment techniques and it is believed that the inferences made are reasonably representative of the Site. NV5 makes no warranty, express or implied, except that the services have been performed in accordance with generally accepted environmental property assessment practices applicable at the time and location of the study.

This Phase I ESA is not, and should not be construed as, a warranty or guarantee about the presence or absence of hazardous substances or petroleum products that may affect the Site. The assessment is not intended to assure clear title to the Site in question. The sole purpose of investigation into Site title records is to ascertain a historical basis of prior land use and environmental liens. All findings, conclusions, and recommendations stated in this report are based upon facts, circumstances, and industry-accepted procedures for such services as they existed at the time this report was prepared (i.e., federal, state, and local laws, rules, regulations, market conditions, economic conditions, political climate, and other applicable matters). All findings, conclusions, and recommendations stated in this report are based on the data and information provided, and observations and conditions that existed on the date and time of the Site visit. Responses received from local, state, or federal agencies or other secondary sources of information after the issuance of this report may change certain facts, findings, conclusions, or circumstances to the report. A change in any fact, circumstance, or industry-accepted procedure upon which this report was based may adversely affect the findings, conclusions, and recommendations expressed in this report.

1.5 Terms

The following terms are used in this report:

- "Site" refers to the property within the approximate boundaries described in Section 2;
- "Adjoining property" refers to properties adjacent to the Site that share a common boundary with the Site; and
- "Site vicinity" refers to the area within an approximate 1-mile radius of the Site.
- "Recognized Environmental Conditions" (RECs) – The presence or likely presence of any *hazardous substances* or *petroleum products in, on, at or to the* Site: (*1*) due to release to the environment; (*2*) under conditions indicative of a *release* to the *environment*; or (*3*) under conditions that pose a *material threat* of a future *release* to the *environment*. *De minimis conditions* are not *recognized environmental conditions*.
- "Controlled Recognized Environmental Condition" (CREC) – A recognized environmental condition resulting from a past *release* of *hazardous substances* or *petroleum products* that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with *hazardous substances* or *petroleum products* allowed to remain in place subject to the implementation of required controls (for example, *property use restrictions*, *activity and use limitations*, *institutional controls*, or *engineering controls*). A condition identified as a *controlled recognized environmental condition* does not imply that the *Environmental Professional* has evaluated or confirmed the adequacy, implementation, or continued effectiveness of the required control that has been, or is intended to be, implemented.
- "Historical Recognized Environmental Condition" (HREC) – A past *release* of any *hazardous substances* or *petroleum products* that has occurred in connection with the Site and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the Site to any required controls

(for example, Site use restrictions, *activity and use limitations*, *institutional controls*, or *engineering controls*).

- "Migrate/migration" – For the purposes of this practice, "migrate" and "migration" refer to the movement of *hazardous substances* or *petroleum products* in any form, including, for example, solid and liquid at the surface or subsurface, and vapor in the subsurface.
- "Hazardous Substances" – The term "hazardous substance" is used here in general accordance with its use as defined in the following regulations:

  -- Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended; and

  -- Superfund Amendment and Reauthorization Act (SARA) of 1986, as amended.

- The words "impact" or "impacted" are used to mean the effect or result of a release of a hazardous substance or petroleum product at the Site. Search distances for government agency lists were those designated by ASTM Standard E 1527-21.

1.6 Environmental Professional

This document has been prepared by an Environmental Professional as defined by the EPA, 40 CFR Part 312.10. All work performed for this assessment was performed by or under the direct supervision of an Environmental Professional.

2 SITE DESCRIPTION

Mr. Eric Fraske, of NV5, conducted a Site reconnaissance on February 2, 2024. The descriptions provided herein are based on information provided by the current Site representatives and on observations made during that visit. Site Location and Site Vicinity maps depicting the areas and features described in the following sections are provided in Figures 1 and 2. Representative Site photographs are included in Appendix A.

2.1 Site Location and Use

2.1.1 Location and Description

The Site is located on the southern side of E. Edna Place between Barranca Avenue and Grand Avenue in the City of Covina, Los Angeles County, California. The Site is approximately 0.94 acres in size and consists of three contiguous parcels of land that are identified by Los Angeles County Tax APNs: 8429-007-005, -006, and -007.

2.1.2 Development and Current Use

The Site is currently developed with an asphalt paved parking lot used for RV storage. A majority of the Site is used for vehicle storage. A small, shed structure located on the central portion of the Site and is used for storage of alarm and security equipment. No chemicals or petroleum are stored onsite.

2.2 Utility Service Providers

Utility service providers to the Site were reported to be the following:

- Electrical service is provided by Southern California Edison.
- Potable water service is provided by the City of Covina.
- Sewer service is provided by the City of Covina.
- Natural gas service is provided by Southern California Gas.

No evidence of septic systems or water wells at the Site was observed or reported during the Site reconnaissance.

2.3 Chemical and Petroleum Storage Areas

No evidence of chemical or petroleum storage at the Site was observed or reported during the Site reconnaissance.

2.3.1 Drums and Totes

No evidence of drums or totes at the Site was observed or reported during the Site reconnaissance.

2.4 Storage Tanks

2.4.1 Aboveground Storage Tanks (ASTs)

No evidence of ASTs at the Site was observed or reported during the Site reconnaissance.

2.4.2 Underground Storage Tanks (USTs)

No evidence of USTs at the Site was observed or reported during the Site reconnaissance.

2.4.3 Septic Tanks

No septic tanks were observed or reported to be present at the Site during the Site reconnaissance.

2.5 Polychlorinated Biphenyls (PCBs)

Pole-mounted transformers were observed along the northern boundary of the Site. No evidence of leaks or releases from the transformer was observed. The presence of the transformers is not considered to represent an REC.

2.6 Floor Drains, Sumps, and Clarifiers

No evidence of drains, sumps, or clarifier at the Site was observed or reported during the Site reconnaissance.

2.7 Back-up Power Generation

No back-up power generation systems were observed or reported to be present at the Site.

2.8 Cooling Towers

No cooling towers were observed on the Site.

2.9 Elevators, Lifts and Compactors

No elevators, lifts, compactors were observed or reported to be present at the Site.

2.10 Odors

No strong, pungent, or noxious odors indicative of a past release of hazardous substances or petroleum products were identified during the course of this assessment.

2.11 Pools of Liquid

No standing surface water or other pits, ponds, or lagoons potentially containing hazardous substances or petroleum products were identified within the Site.

2.12 Surface Staining

No evidence of surface staining observed during the Site reconnaissance.

2.13 Stressed Vegetation

No significantly stressed vegetation or other indications of potential release of hazardous substances or petroleum products were observed during the Site reconnaissance.

2.14 Solid Waste

No evidence of solid waste dumping or releases was observed during the Site reconnaissance.

2.15 Adjacent Properties

The Site is located within an area developed for commercial and industrial use. Current uses of adjoining properties include E. Edna Place followed by a multi-tenant industrial business park to the north, a satellite television facility to the east, railroad tracks followed by a janitorial office to the south, and a pet day-care facility to the west.

3 SITE SETTING

3.1 Topography

The 2021 United States Geological Survey (USGS), “Baldwin Park, CA” 7.5 Minute Topographic Quadrangle map of the Site and surrounding vicinity was reviewed. The elevation of the Site is approximately 606 feet above mean sea level (msl). The Site and surrounding topography slopes towards the west-southwest. A copy of the USGS 7.5 Minute Topographic Map is included in Appendix B.

3.2 Regional Geology and Hydrology

The following description of regional geology and hydrology was developed based on regional information presented in the site-specific Environmental Data Resources (EDR) GeoCheck report (2023).

According to United States Department of Agriculture (USDA) soil data published in the EDR report, soils underlying the Site are classified as *Urban Land*. Soils of this type are highly variable due to the extensive amounts of past development.

According to groundwater information published on the State of California Geotracker website for a facility located at 601 North Grand Avenue (approximately 1,400 feet southeast of the Site), the shallowest groundwater in the vicinity of the Site is expected to be present at a depth of greater than 125 feet below ground surface. Groundwater flow is expected to flow towards the southwest, based on local Site topography.

3.3 Flood Plain

According to Federal Emergency Management Agency flood plain data presented in the EDR Report, the Site is not located withing the boundaries of a 100-year or 500-year flood zone (EDR, 2023). The EDR Report is presented as Appendix B.

3.4 Wetlands

According to map data published on the United States Department of Fish and Wildlife (USFW) National Wetlands Inventory, no wetlands are mapped on the Site. A screenshot is provided in Appendix C.

3.5 Water Bodies

No water bodies were observed on or adjacent to the Site during the Site reconnaissance.

3.6 Oil and Gas Wells

According to the State of California Geologic Energy Management Division (CalGem) online Well Finder application, no oil/gas are located on or adjacent to the Site.

4 CLIENT/USER-PROVIDED INFORMATION

NV5 considers the Client to be the 'User' of our assessment, defined in ASTM Practice E1527-21 as "the party seeking to use Practice E1527 to complete an environmental site assessment of the subject property". A User may include, without limitation, a potential purchaser of property, a potential tenant of property, an owner of property, a lender, or a property manager. The User has specific obligations for completing a successful application of this practice.

The EPA All Appropriate Inquiry Rule (40 CFR Part 312) and ASTM E1527-21 § 6 require the User to answer certain questions related to the Site in order to obtain certain LLPs from CERCLA liability. To facilitate this process, NV5 provided the client with a User Questionnaire, which is presented in Appendix F. A summary of the required questions and client responses is provided below.

4.1 Title Records

Title records were not provided to NV5 by the Client/User for review. However, the EDR Lien and AUL Search report included a search and review of records for property transfers since January 1, 1980. According to this report, no transfers have occurred since January 1, 1980, and the current owner of the Site is Russ D. Ford.

The EDR Lien and AUL report is presented in Appendix D.

4.2 Clean-Up Liens

No knowledge of any clean-up liens against the Site was reported by the Client/User. Furthermore, the EDR Environmental Lien and AUL Search report did not identify any environmental liens for the Site (Appendix D).

4.3 Activities and Use Limitations

No knowledge of any activities and use limitations against the Site were reported by the Client/User. Furthermore, the EDR Environmental Lien and AUL Search report did not identify any activities and use limitations for the Site (Appendix D).

4.4 Specialized Knowledge

No specialized knowledge identifying evidence of a REC was disclosed by the Client/User during this assessment.

4.5 Commonly Known Information

No commonly known information identifying evidence of a REC was disclosed by the Client/User during this assessment.

4.6 Previous Environmental Assessments

No previous environmental assessment reports for the Site were provided to NV5 during this assessment.

5 RECORDS REVIEW

5.1 Governmental Databases

NV5 contracted EDR to perform a radius search of governmental databases for this project. The distribution of listed sites with respect to the Site is tabulated and mapped in EDR's Radius Map Report, which can be found in Appendix B. The reader is referred to the table, which can be found near the front of EDR's report.

NV5 conducted a review of the above-referenced database reports and provides the following findings based on sites that have the potential to impact the Site, with respect to the inferred southwesterly groundwater flow direction. Our findings are based on the assumption that a hazardous material released to the subsurface generally does not migrate laterally within unsaturated soil for a significant distance. Although a hazardous substance or petroleum product can migrate in groundwater in a generally down-gradient direction, there are limitations to this interpretation such as groundwater depth, soil lithology and other subsurface barriers.

5.1.1 Site Database Findings

EDR's report did not identify the Site address.

5.1.2 Adjoining Property Database Findings

EDR's report identified several of the adjoining properties, as summarized as follows:

Facility Name & Address	**Aman Bros General Engineers 642 E. Edna Place Covina, CA 91723**	**Western Adjoining Property**
Database(s) Listed: SWEEPS UST and Los Angeles CO. HMS		
This facility is identified as the location of a UST(s). The size, type, quantity, and contents of the UST(s) were not reported. No leaks, spills, or releases are reported. This listing is not considered to represent and REC.		

Facility Name & Address	**JNL Creations 647 E. Edna Place Covina, CA 91723**	**Northern Adjoining Property**
Database(s) Listed: RCRA NonGen/NLR		
This facility previously maintained a hazardous waste generator identification number with the State of California that was deactivated in 2017. The type(s) and quantities of waste generated at this facility was not reported. No violations, leaks, or releases were reported. This listing is not considered to represent an REC.		

Facility Name & Address	**Connector Contacts Manufacturing Inc. DBA Connector Contacts 714 E. Edna Place Covina, CA 91723**	**Eastern Adjoining Property**
Database(s) Listed: RCRA NonGen/NLR, CERS HAZ WASTE, HWTS, HAZNET, CERS		

Facility Name & Address	**Connector Contacts Manufacturing Inc. DBA Connector Contacts 714 E. Edna Place Covina, CA 91723**	**Eastern Adjoining Property**
This facility was identified as a generator of hazardous wastes. This facility reported the generation of hazardous wastes including organic solids, unspecified oil-containing wastes, and aged or surplus organics. Violations were issued to this facility in 2022 and 2016 by the Fire Department for failure to remove spilled oil within a secondary containment area, failure to properly label waste oil drums, failure to submit adequate chemical inventory information, and failure to maintain a bill of lading for shipment of waste lead acid batteries. All violations were subsequently corrected. These listings are not considered to represent an REC.		

Facility Name & Address	**J&J Door Closer Services, Inc. 716 E. Edna Place Covina, CA 91723**	**Eastern Adjoining Property**
Database(s) Listed: RCRA-SQG, FINDS, ECHO, CERS HAZ WASTE, HWTS, HAZNET, CERS, RCRA NONGEN.		
This facility previously was identified as a small quantity generator of hazardous wastes. This facility has reported the generation of various hazardous wastes including aqueous solutions with less than 10% residues and waste oil/mixed oil. Violations were issued to this facility in 2023, 2018, and 2015 by the Fire Department for failure to submit an accurate site map, failure to properly label hazardous waste containers, failure to keep hazardous waste container lids closed when not in use, failure to maintain waste manifest records, failure to remove spilled waste oil from an area of secondary containment, and failure to notify the Fire Department of an aerosol can processing process at the facility. All violations were subsequently corrected. These listings are not considered to represent an REC.		

Facility Name & Address	**Jones & Roy Company 620 North Commercial Avenue Covina, CA 91723**	**Southern Adjoining Property**
Database(s) Listed: SEMS-ARCHIVE, RCRA NONGEN, FINDS, ECHO, ENVIROSTOR		
This facility, located across the railroad tracks from the Site, was identified as a previous hazardous waste generation site. According to the SEMS database, this facility was issued No Further Remedial Action Planned Status in 1986. According to the Envirostor database, this facility was assessed in 1984 by the DTSC for being a possible dump site. The status for this facility is listed as No Further Action in 1994. No violations, leaks, spills, or releases were reported at this facility. These listings are not considered to represent an REC.		

5.1.3 General Vicinity Database Findings

EDR's report identified multiple off-Site facilities within applicable ASTM search radii. NV5 considered all of the listed sites unlikely to impact the Site, based upon factors including (but not limited to):

- The nature of the listing;

- The use of the facility;
- When the site was listed and its current listed status;
- The developmental density of the setting;
- The distance between the listed facilities and the Site as related to the distance that releases are likely to migrate based on local surface and subsurface drainage conditions;
- The presence of intervening drainage divides; and/or
- The inferred groundwater movement.

5.2 Regional Agency Offices

NV5 submitted information requests to the various county and regional agencies that may have records with regard to environmentally oriented concerns affecting the Site, in accordance with ASTM E1527-21 requirements. Documentation obtained from regulatory agency requests is presented in Appendix C.

Agency	Records Summary
Los Angeles Regional Water Quality Control Board – GeoTracker	No records for the Site were identified.
State of California Department of Toxic Substances Control – Envirostor	No records for the Site were identified.
City of Covina	Because the Site has not been assigned an address, a search of City of Covina Building and Safety Department records was not possible.

5.3 Historical Records

NV5 used USGS topographic (Topo) maps, aerial photographs, fire insurance maps, and historical street directories to provide information about the history of the Site and its surroundings. The resources NV5 reviewed are tabulated as follows and presented in Appendix E.

Historical Resources		
Source Type	**Years Reviewed**	**Source**
USGS Topo Maps	1894, 1897, 1898, 1904, 1925, 1927, 1933, 1939, 1953, 1966, 1972, 1981, 2012, 2015, 2018, and 2021	USGS/EDR
Aerial Photograph(s)	1928, 1938, 1948, 1953, 1964, 1970, 1977, 1983, 1989, 1995, 2005, 2009, 2012, 2016, and 2020	EDR
Fire Insurance (Sanborn) Maps	No Coverage Letter	EDR
Street Directories	1920 to 2020	EDR

5.4 Past Uses – Site

Our interpretation of past uses of the Site, based on the historical data sources listed previously, are tabulated below.

Date	Interpreted Property Use
1928 to 1953	Aerial photographs and Topo maps depict the property to be land cultivated for agricultural use.
1964 to 2020	Aerial photographs depict the property to be developed with the present-day vehicle parking lot.

5.5 Past Uses – Adjoining Properties

Our interpretation of past uses of the adjoining properties, based on the historical data sources listed previously, are tabulated below.

Date	Description
Northern Adjoining Property	
1928 to 1953	Aerial photographs and Topo maps depict the property to be land cultivated for agricultural use.
1964 to 2020	Aerial photographs depict the property, across E. Edna Place to be developed with the present-day commercial structures. Historical city directories identified past occupants of the property as: <u>649 Edna Place</u> • Fire Sprinkler Installers (2014 to 2020) <u>657 Edna Place</u> • Swift Auto Parts (2014) • Edgewood Press (1980 to 2003) <u>671 Edna Place</u> • Hydro Source (2010 to 2020) • East Valley Electric (1985 to 1995) • Perma Cool (1992 to 1995) • Diamond Printing and Publishing (1975 to 1980) • Huard SR and Associates Electronic Instruments (1966)
Southern Adjoining Property	
1928 to 1953	Aerial photographs and Topo maps depict the property to be developed with railroad tracks followed by land cultivated for agricultural use.
1957 to 2020	Aerial photographs depict the property, across the railroad tracks, to be developed with the present-day commercial structures. Historical city directories identified past occupants of the property as: <u>619 Commercial Ave</u> • CERPAC Seahorse (2003 to 2014) • SERCOMOLDS (2003 to 2020) • LE TIP City of INDS (1992)

Date	Description
	• Business Furnishings (1992) <u>620 Commercial Ave</u> • Jones and Roy Wire and Metal Products (1957 to 1966) • Briteworks (2020)
Western Adjoining Property	
1928 to 1953	Aerial photographs and Topo maps depict the property to be land cultivated for agricultural use.
1960 to 2020	Aerial photographs depict the property to be developed with the present-day commercial structure. Historical city directories identified past occupants of the property as: <u>642 E. Edna Place</u> • Dog on Fun (2020) • K9 Adventures (2010 to 2014) • JSC Co (2005) • Drivers Equipment Yard (1992) • UNI Art Studio (2003) • Shams Food and Beverage (1985) • Double Cola and KIST Bottling (1960 to 1980)
Eastern Adjoining Property	
1928 to 1953	Aerial photographs and Topo maps depict the property to be land cultivated for agricultural use.
1964 to 2020	Aerial photographs depict the property to be developed with the present-day commercial structures. Historical city directories identified past occupants of the property as: <u>708 E. Edna Place</u> • A1 Satellite TV (2005 to 2020) • Baily Mold Inc. and Machine (1975 to 1980) • Promotional Representative Inc. (1986) • Larson Machine and Grinding (1995) <u>716 E. Edna Place</u> • Covina Lack and Key (1995 to 2010) • J&J Door Closer (1985 to 2020) • Larson Machining and Grinding (2003) • Engineering Services (1992 to 1995) • Gumball Factory (1985) • Mayfair Construction (1975 to 1985) • Murray Millers Mobile Homes (1975 to 1985) • Okeefe RJ and Sons (1985 to 2014) • WE Machine Shop (1975) • Graphic Engineering Unlimited (1966)

5.6 Interviews

NV5 interviewed parties potentially having information about current and/or former conditions at the Site. The parties and their affiliation are listed on the following table.

Interviews		
Name	**Affiliation**	**Role**
Mr. Max Margolin	Upstream	Client/User Representative
Mr. Chuck Rhodes	Property Owner Representative	Site Owner Representative

- Mr. Margolin arranged for Site access and completed the User Questionnaire.
- Mr. Rhodes provided basic Site information and access to the Site. He indicated that he was not aware of any USTs, wells, or known areas of contamination at the Site.

6 NON-SCOPE CONSIDERATIONS

Per the authorized scope of work, items beyond the scope of ASTM E 1527-21 were not addressed as part of this assessment.

7 VAPOR ENCROACHMENT SCREENING

ASTM E1527 requires the Environmental Professional to evaluate the potential for vapor encroachment of chemicals of concern (COC) onto the Site, and to determine if such vapor encroachment constitutes evidence of a REC on the Site. The E1527 Standard Practice does not specifically state the methods that must be used to screen for potential vapor encroachment issues. However, ASTM has developed a separate Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions (ASTM E2600-22), which outlines an ASTM E1527 compliant methodology to conduct vapor encroachment screening that was used for this assessment as described below.

7.1 VES Methodology

The goal of conducting Vapor Encroachment Screening (VES) is to identify a vapor encroachment condition (VEC), which is defined as the presence or likely presence of chemicals of concern (COC) vapors in the vadose zone of the Site caused by the release of vapors from contaminated soil and/or groundwater either on or near the Site. If a VEC is identified, the Environmental Professional must determine whether the VEC represents evidence of a REC on the Site under the context of the Phase I ESA Standard Practice. It should be noted that the identification of a VEC on the Site does not necessarily indicate that a potential for migration of vapors into existing or proposed structures on the Site is likely. The Environmental Professional will identify the VEC as a REC where the potential for vapor migration into structures is considered likely, or where the contaminant concentrations in the soil, groundwater, or soil vapors on the Site are significant and likely to result in enforcement against on-site or off-site responsible parties.

The VES utilizes information regarding the potential presence of releases on or near the Site that were collected as a normal part of the Phase I ESA process, such as governmental database records, review of governmental files, historical data sources, etc. The VES Standard Guide requires the Environmental Professional to search for potential sites of concern within specific search radii. The area of concern search radius is 1,760 feet (1/3 mile) for non-petroleum-impacted sites and 528 feet (1/10 miles) for petroleum-impacted sites. The default search distances may be expanded or reduced in the upgradient, downgradient, or cross-gradient directions by the Environmental Professional based on experience in the local area and applying professional judgment to factors such as where a well-defined regional groundwater flow direction is identified, or whether other geologic features such as low permeability soils or hydrogeologic boundaries such as rivers or streams exist which would tend to limit the potential for migration of groundwater or vapors in a particular direction.

7.2 VES Search Results

NV5 identified several sites of potential concern within the VES search radii. However, based on our review of governmental database records, regulatory agency files, and historical resources referenced in Section 5.3, none of the sites of potential concern are considered to represent a VEC.

8 FINDINGS

Based on the Site reconnaissance, review of historical and available documents, and interviews, NV5 finds the following:

8.1 Current Site Activities

The Site is currently developed with an asphalt paved parking lot used for RV storage. A majority of the Site is used for vehicle storage. A small, shed structure located on the central portion of the Site and is used for storage of alarm and security equipment. No chemicals or petroleum are stored onsite.

8.2 Historical Site Activities

Historical resources indicated that the Site was originally cultivated for agricultural use as early as 1928. Between 1954 and 1963, the Site was redeveloped for use as a vehicle parking lot.

8.3 Off-Site Activities

The Site is located within an area developed for commercial and industrial use. Current uses of adjoining properties include E. Edna Place followed by a multi-tenant industrial business park to the north, a satellite television facility to the east, railroad tracks followed by a janitorial office to the south, and a pet day-care facility to the west.

8.4 Data-Gaps

The ASTM Standard defines a data gap as “a lack of or inability to obtain information required by the practice despite good faith efforts by the Environmental Professional to gather such information.” A data gap is only significant if other information obtained during the ESA, or professional experience, raises reasonable concerns and affects the ability of the Environmental Professional to identify whether a given issue is a REC. The ASTM Standard requires that the ESA report identify and comment on significant data gaps. No data gaps were identified by NV5 during this assessment.

9 CONCLUSIONS AND RECOMMENDATIONS

NV5 completed a Phase I ESA of the property identified by Los Angeles County Tax Assessor's Parcel Numbers (APNs) 8429-007-005, -006, and -007 located along the southern side of E. Edna Place in Covina, Los Angeles County, California (Site). The ESA was performed in conformance with the scope and limitations of the ASTM E1527-21 standard. Any exceptions to, or deletions from, this practice are described in Section 1.0 of this report. The assessment was performed to identify conditions indicative of releases and threatened releases of hazardous substances and petroleum products on, at, in, or to the Site.

Conclusions

No evidence of a REC, HREC, CREC or VEC, in connection with the Site was identified during this assessment.

Environmental Issues of Note

While not considered to represent RECs, the following environmental issue of note were identified at the Site during this assessment:

- The Site has been previously cultivated for agricultural use. Although no information or observations indicating the misuse or misapplication of pesticides, herbicides, or fertilizers was identified during the assessment, in certain instances, the chemicals historically applied to the Site, or their breakdown products, could be persistent and not biodegrade. As with any agriculturally developed land, there exists the possibility that pesticides, herbicides, or fertilizers have been applied that may still be present at residual concentrations.

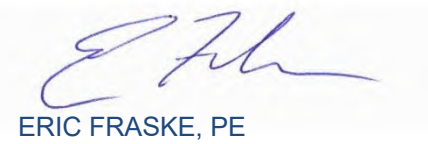
Recommendations

Based on the findings and conclusions presented in this report, NV5 recommends the following:

- No additional assessment is recommended at this time.
- Due to the Site's previous agricultural use, herbicide and pesticide sampling may be required prior to export or disposal of any Site soils.

10 QUALIFICATIONS AND SIGNATURE

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in 40 CFR 312.10. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Site. I have developed and performed the All-Appropriate Inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.



ERIC FRASKE, PE
SENIOR PROJECT MANAGER

Resume and other supporting documentation are maintained on file at NV5.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

TARGET PROPERTY INFORMATION

ADDRESS

NOT REPORTED
COVINA, CA 91723

COORDINATES

Latitude (North):	34.0925370 - 34° 5' 33.13''
Longitude (West):	117.8774720 - 117° 52' 38.89''
Universal Tranverse Mercator:	Zone 11
UTM X (Meters):	419052.3
UTM Y (Meters):	3772569.0
Elevation:	606 ft. above sea level
