

Building Inspectors conduct field inspections on projects to ensure compliance with state and local codes. Building Inspectors ensure public safety by verifying that buildings and structures are within the parameters requested by the architect or engineer.

Building Inspection Appointment Verification

In an effort to better serve City of Covina home owners and building contractors working in the City of Covina, the Building and Safety Section is providing a new way to verify scheduled inspections.

For inspection requests, please call the inspection request line at (626) 384-5461 and leave a message according to the prompts.

Please call (626)-384-5400 extension 5907 to hear a list of the inspections scheduled for the day.

Forms and Handouts

The following handouts provide additional information about necessary inspections for specific types of projects:

- [Obtaining a Block Wall Permit](#)
